

THE SYSTEM

Supreme is the pioneer in introducing efficient PVC S.W.R. drainage system in India. It has successfully replaced conventional CI and AC drainage systems. The Supreme S.W.R. drainage system is designed for quick and efficient removal of waste without leakage. It is highly resilient, tough and durable with high tensile and impact strength. Moreover it is free from scale formation, rusting, weathering and chemical action. It is virtually immune to attack from bacteria, fungi, micro-organisms and insects. Thus, the system is a long term solution for building drainage with estimated life over 50 years. In addition to the various benefits, it is more cost effective than any conventional drainage system.

Product Specifications and Range

Pipes are available in 40 to 200 mm sizes and fittings are available in 40 to 200 mm sizes. Pipes conforms to IS:13592-92 and fittings conforms to IS:14735-99.

FEATURES AND BENEFITS

- High quality and wide range
- Quick and efficient removal of waste without leakage
- Strong and longer lasting
- Excellent chemical and corrosion resistance
- Adequate and easy access for cleaning and clearing obstructions.
- Quick and convenient installation
- Low maintenance
- Cost effective
- UV resistance

PIPES

Pipes conform to IS:13592-2013
