## Welcome to the most luxurious experience

I was always fascinated by GM's idea of luxury and therefore this successful association. Luxury is one brilliant idea. The one idea that further helps to elaborate creating functional products.

GM understands how important experiences are, and that is what we inculcate in our designs. FourFive is about classic timeless forms to unconventional designs, we find inspiration from everything.

Being GM's brand ambassador, I believe that luxury is that state of mind where experiences aid in creating the right mindset. GM's motive of offering convenience to a million, got my instant consent of collaboration. Moreover, with our passion towards our work, the excellence in creating products of exceptional quality, I can relate with my belief of giving it my all for that one perfect shot.

With all my heart, I welcome you to have the most luxurious GM experience.

Suniel Shetty  
( Brand Ambassador )

## reddot design award design concept

GM has been honoured with the prestigious Red Dot Award, 2023. The Red Dot Award represents excellence in design and innovation, values that have always been at the core of our work at GM. Awarded for a path-breaking product that is an epitome of technological innovation and meticulous craftsmanship; the achievement is a testament to the collective efforts of talented teams at GM.

We at GM look forward to continue innovating and crafting more such products that would set newer benchmarks in the design and innovation industry.

A hand is shown reaching towards a white light switch with a gold-colored handle. The background is a dark, starry space. The word 'CONTENT' is written in large, white, sans-serif capital letters across the center of the image, with the hand and switch partially overlapping the letters.

## EVOLUTION IS INEVITABLE

### SWITCHES & ACCESSORIES

Each passing day a new idea takes shape that transforms the present into something better. A concept that evolves with time and stands the test of time, that is, G-Era. It is all about bringing newness to things. It is the joy of offering new solutions to all the spatial needs within a home. G-Era is about the new, which is you.

Notes

# To make a better world, make life simpler.

It is what we strongly believe in. It is not just about innovating products, it's about everything we do that affects people and environment around us. We find us responsible to do things differently and in a better way. These are few initiatives we have already set into motion.

## CLIMATE IMPACT

GM Modular supports the Climate Impact cause. We want to help carve a better cleaner world and that is why we started a strategic policy initiative. We are committed to align operations and strategies with environment friendly principles.

## RECYCLE

We constantly find ways to make more out of less. That is why we try our best to use a recyclable resource. From tiny metal pieces to whatever that can harm the environment in reproducing, we reuse it.

## LESS TRANSPORT

We have regional distribution centres spread across the country. In order to reduce the distance that our products have to travel to reach our customers, we have distribution centres with our channel partners to cut down on the transportation distance that helps curb CO2 emissions.

## BETTER HOME ENVIRONMENT

A good home environment is important for your health and well-being. It is not only the ventilation and construction materials, but also the things you have inside, that influence the indoor environment of your home. GM refrains from using any harmful raw material that may cause unhealthy circumstances to life.

## CERTIFIED

To help consumers make qualified decisions in choosing products that contribute to a healthy lifestyle, GM products have received safety certifications from around the world, as they have been tested thoroughly with regards to their functioning.

# Harmonising design and technology

The GM product range sets standards in design, function and technique. GM offers high-quality design, attractive colours and numerous intelligent functions with switches and automation. Our intent is to raise the quality of life and therefore, all products are designed to harmonize perfectly, with each other. From switches to socket outlets, from music technology to home automation, the use of GM products is not only attractive, but also convincingly comfortable. Having clear operating instructions in our packaging with the most important technical data assists in the safe and faultless installation of every GM product.
